Display Advertising

Why advertise in the Laguna Beach City Guide?

REACH:

The guide is distributed to engaged audiences in Laguna Beach's highly trafficked restaurants, retail stores, hotels and more.

TARGET:

The thousands of affluent visitors who come to town every week as well as Laguna Beach locals

LONGEVITY:

Because of our format and smaller size, our publication is kept at the ready for references and for longer periods of time.

CONTENT & DESIGN:

The guide is not only aesthetically pleasing but also fun to read. The guide features informative content that gives readers the information they're looking for as well as interesting, quality editorial that has readers coming back time and again.

ADVANTAGE:

The Laguna Beach Magazine City Guide is the ONLY complete directory available and include more than 600 places to Stay, Play, Shop and Dine.

This one-stop guide to summer is the most comprehensive resource to shopping, dining and entertainment in Laguna Beach.

The City Guide is the easiest and most affordable way for your business to reach the millions of visitors this summer that want to "live like a local."

TRIM: 2.375 X 7.875

1/2 PAGE

TRIM: 4.875 X 3.875

1/4 PAGE

TRIM: 2.375 X 3.875

Printing Specifications: Trim Size 5.375 x 8.375

Line Screen / Density 150 line / 300% maximum density. This publication prints computer-to-plate. No film.

Ad Dimensions: All live matter must be at least 0.25(1/4) from the trim and a minimum of 0.125(1/8) bleed added to all sides.

NOTE: All live matter must be at least 1/4" from the TRIM of the magazine. The bleed size listed above is the page trim size with 1/8" minimum bleed added to all sides. It is not the trim size. Make sure that copy does not run into the gutter on two-page spread ads.

Prepress Guidelines: Laguna Beach Magazine City Guide is prepared in a Macintosh format computer-to-plate (CTP) environment.

InDesign is the primary page layout program used. **PDF/X1-a** and Macintosh formatted InDesign documents are the preferred material formats. Your files will pass through a preflight operation to confirm all elements are present and correct. If there are problems, we will contact you and work to resolve them (with applicable charges). To minimize problems, please read and follow the guidelines below.

Digital file requirements: We accept the following native file formats: Adobe InDesign (preferred) Adobe Photoshop and Adobe Illustrator. You must package or collect all support files including fonts. Do not apply style attributes to fonts. Use only standard Adobe fonts in PC-created documents. Convert all PMS spot colors used in any application to CMYK.

Images: All images must be submitted (grayscale or CMYK) as native Photoshop PSD, EPS or TIF at 300 dpi. (Images supplied at lower resolution will result in an inferior print quality that will not be the publisher's responsibility.) Any images supplied as RGB, index, lab or containing color profiles will be converted to CMYK, which may result in an undesirable color shift. We can't be responsible for files supplied in formats other than CMYK. Scaling, rotating or other image manipulation must be done prior to placement in the page layout program.

PDFs: PDF x1a files are acceptable only if they meet size, color and resolution requirements as detailed in the Images section above.

Proofs: For color-sensitive materials, a proof created to SWOP specifications is required. Ink jet and laser prints are acceptable for content only. We will not be responsible for color shifts on press if no approved color proof has been supplied.

Shipping: Please ship materials and direct questions to the following:
