AD FILE FORMAT: Advertisements must be submitted in a 300 DPI, print-ready PDF. JPEG or TIFF files are acceptable. CMYK only.

BLEEDS: Please add .25" to all sides if ad is to bleed. Crop marks are required for ads with bleeds.

LIVE MATTER: All live matter (safe area) must be at least 1/4" from the TRIM of the magazine. Make sure that copy does not run into the gutter on two-page spread ads.

PREPRESS GUIDELINES: Laguna Beach Magazine is a Macintosh format Computer to Plate (CTP) environment, AdobeInDesign is the primary page layout program used. PDF/X1-a and Macintosh formatted InDesign documents are the preferred material formats. Your files will pass through a preflight operation to confirm all elements are present and correct. If there are problems, we will contact you and work to resolve them (with applicable charges). To minimize problems, please read and follow the guidelines below.

IMAGES: All images must be submitted (grayscale or CMYK) as native Photoshop PSD, EPS or TIF at 300 dpi. (Images supplied at lower resolution will result in an inferior print quality that will not be the publisher's responsibility.) Any images supplied as RGB, index, lab or containing color profiles will be converted to CMYK, which may result in an undesirable color shift. We can't be responsible for files supplied in formats other than CMYK. Scaling, rotating or other image manipulation must be done prior to placement in the page layout program.

PROOFS: For color-sensitive materials, a proof created to SWOP specifications is required. Ink jet and laser prints are acceptable for content only. We will not be responsible for color shifts on press if no approved color proof has been supplied.
